13. Number and size of lots: 1 lot approximate size of subdivision: N/A Single Residence

14. How do you intend to meet the park dedication requirement? cash donation park dedication
 Combination n/a

Please include a sketch of the proposed subdivision showing the layout of the existing streets in relation to the site.

SUBDIVISION PRE-APPLICATION CONFERENCE

- A. Prior to submitting a preliminary plat application, a subdivider for a subdivision must consult with the Planning division of the Community Development Department to become familiar with the City's subdivision application requirements and review process. The subdivider must attend a pre-application meeting prior to submitting a subdivision application or resubmitting a previously submitted subdivision application that has material changes or amendments made by the subdivider after the original application has been determined by the City to contain required elements and sufficient information.
- B. The pre-application meeting will be scheduled within thirty (30) days after the subdivider submits a written request for a pre-application consultation and submits the pre-application materials to the City.
- C. To be considered for review, a subdivision application must be submitted within one hundred eighty (180) days of the pre-application meeting consultation. If an application is not submitted within that time frame, the subdivider must request a new pre-application consultation prior to submitting the subdivision application.
- D. In order to make the pre-application consultation productive, the subdivider should provide as much of the following information as possible:
- 1. Names and addresses of the subdivider and the owner of the property proposed to be subdivided;
 - 2. Name of proposed subdivision;
 - 3. Location of the property to be subdivided;
 - 4. Existing zoning of the property to be subdivided;
 - 5. Number and size of proposed subdivided lots;
 - 6. Size of the proposed subdivision;
 - 7. Name and contact information for any engineer or surveyor that have been retained;
 - 8. Proposed water and wastewater systems;
 - 9. Nearest existing water and wastewater mains to the property and type, size, and location of existing wastewater treatment facilities, including septic systems;
 - 10. Proposed streets;
 - 11. Whether the subdivider intends to apply for a zone change, zoning variance, or subdivision regulation variance;
 - 12. Description of any physical and environmental site conditions on the property;
 - 13. Stormwater drainage system;
 - 14. Proposed special improvement or maintenance districts;
 - 15. Proposed park land dedication;
 - 16. Legible drawing of the proposed subdivision showing layout of existing streets in relationship to proposed improvements and topography of the tract, if possible (drawing does not need to be to scale);
 - 17. A general vicinity map showing existing streets and north arrow;
 - 18. Existing structures on the property;
 - 19. Existing easements and right-of-ways on the property;
 - 20. Existing and proposed covenants or deed restrictions;
 - 21. Water rights, including the name of owner(s), amount of water by flow rate or volume, date of priority of the right, purpose of use, place of use, and place and means of diversion;
 - 22. Types and locations of agricultural water facilities; and
 - 23. Analysis on how the proposed subdivision complies with the City Growth Policy.

Applicable Laws and Regulations

The following are state laws, local regulations, Growth Policy provisions and other documents that may apply to the subdivision review process; this is for informational purposes only per MCA 76-3-504 (1)(q)(ii):

Re: Jennell Day Residence

Attn: April

This document is a narrative to accompany pre-application form and proposed site plan for the Jennell Day Residence located at 875 Hillsdale St. The attached site plan shows our property limits, proposed location of the house, and where we will run extend water and sewer main across the frontage of the property. As of now we know that the exiting sewer and water mains are run along the intersecting streets of Shiland St and S. Hoback St. The mains terminate into manholes roughly 30' south of the intersections of Hillsdale. Our plan would be to tie into these existing locations and then run along property frontage to meet city codes. We also understand there may be some street improvements that the homeowner Jennell Day would be responsible for i.e. road paving, curb and sidewalk. We would respectfully reserve the right to address these items at a pre-Application meeting with you. In addition to the drawing, we would have a driveway tying into the city street of Hillsdale but did not show that on drawings as we are finalizing where the owner would like it to come out, and if it will wind up the hill, or come out directly from garage to street. Please let me know if you have any questions.

Respectfully,

Mike DiPietro
President
DiPietro Construction
